MEENA – SPONSORSHIP NEEDED FOR NURSING

Meena is our first supported child to leave school and want to take on higher study after year ten. She needs help to meet her nursing course fee.

Home	Kathmandu
Description & family history	<p>Meena is the only daughter of Radha. Radha is desperate, as her husband recently died of high blood pressure and she has no financial support. At Dharmik we believe in community, therefore we agreed to pay and help support Radha’s children by paying for their school fees.</p> <p>Meena is a gorgeous girl, incredibly polite, sweet and helpful. She adores her hard working mother and is very happy to get the chance to go to a good school and learn English. The reason she is still in school is because she started school very late in her childhood.</p>
Class	Recently passed S.L.C in first division
Aim	<p>Meena is a very hard working and diligent girl. She got 72% in the S.L.C exam. She aims to be a nurse and hopes to serve helpless and ill people. Instead of her hard work and good percentage in S.L.C, her family’s poor economic condition hinders her way to fulfil her dream. Nursing is an expensive subject in Nepal. It costs around \$5000-\$6000 to complete three years course of PCL nursing. We want Meena to fulfil her dream but we cannot give such lump sum amount to a single child because we have to look for other 48 kids as well. Hence we need sponsors support in this regard so that a girl can fulfil a dream of serving others.</p>
School Ability	Very good
English speaking Ability	Very good
DOB	27th August
Age	17
Region	Birgunj
Brothers & sisters	A younger brother
Physical Condition	Good
